The Schihof

Summer 2012

Summit reached

A hiking tour in late Autumn

Our small family hotel boasts 17 rooms, all with balcony, telephone, TV, bath with WC, tub and /or shower, hair dryer. Our guests meet in the comfortably furnished dining room, in one of the rustic guest rooms, the little 'Stüberl' or at the hotel bar to enjoy good times and good company. We spoil you with sumptuous treats from kitchen and cellar. In the package are a variety of meal choices, including vegetarian dishes, salad bar, a choice of desserts and a buffet breakfast. We serve special children's meals, catering to the likes of little ones. It's the comfortable, family atmosphere that distinguishes our hotel. For us hospitality is not just a figure of speech.

Hikers rest beside a mountain stream
Surrounded by Alpine Roses in bloom.

In the middle of the Carinthian Nockberge lies our small Wander Hotel, in the village of Innerkrems, where the national park begins. This is a high valley open, on the north and west, allowing for lots of sunshine.

Our offer to hikers:

3 times a week your host, himself, a certified wander guide, takes you on hiking tours. Nordic Walking is also an option. The Nockberg National Park is perfectly suited to offer various theme oriented excursions: game observation, forgotten mining sites, vegetation study, investigating local geology, tour of the alpine herdsman's huts, Speik tour (a type of jarrow unique to this area). We have a collection the best full-day and half-day tours in an information pamphlet, available in our National Park Corner along with ample literature concerning the region. A film evening, milking competition and bowling are also included in our entertainment program. There is an electric shoe drying rack and shoe shine machine for your convenience. We also offer a good buy on back packs and hiking poles although you can, of course, rent any wander equipment you will need. We provide you with fruit, tee, fruit drinks and pack lunches to take along.

You wander through smooth rounded mountains, 1500m – 2400m from anywhere between 3 to 5 hours. For experienced and fit hikers we offer tours of from 5 to 7 hours. The nearby Malta Valley offers peaks of 3000 m. For more easily reached summits we have 2 ski lifts in the village. A bus is available along the Nockalm Road and in the National Park. An extra service for our guests is transportation in our own wander van to wander and hiking destinations of your choice.

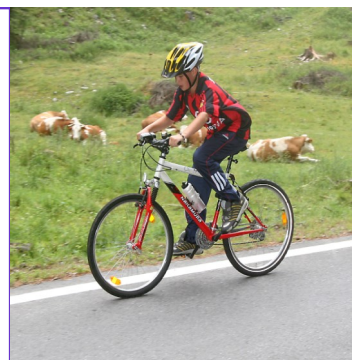

KÄRNTEN

The Joy
of
„WANDERN“

Further possibilities include side trips to the popular Carinthian lakes, castles and fortresses, or to visit cultural highlights and events
