The slope on „Blutige Alm“

Innerkrems means winter fun

At 1,500 m, in the middle of the Carinthian Knockberge lies our hotel in the small village of Innerkrems, with it`s little miner`s church from the 15th century. To the south is the Nockberg National Park and the ski area is just to the north „Blutige Alm“ A sunny, fog-free, guaranteed snow packed high valley which promises special winter fun. 2 chair lifts, 7 T-bars, long runs. Practice slopes for beginners, well groomed slopes and deep-snow runs for advanced skiers as well as 2 cross country ski tracks are waiting for you.

As ski hikers you can enjoy the freedom of carving your own tracks in powder or crystal snow on open, untouched slopes outside of the safety marked areas.

The local ski and racing school and ski kindergarten, Bobo Club and the equipment rental facility are more than happy to initiate you into the art of skiing. Experienced ski instructors accompany you through the magnificent winter landscape of the Nockberge and pass along to you the newest techniques for unending enjoyment both within and beyond the slopes.
